**Portfolio:** <https://felipemarchetti.github.io/felipe-marchetti-portfolio/>

## PROFILE

Full-Stack Developer with more than five years of experience in web development, especially e-commerce platforms and web systems. Strong hands-on background with PHP, Laravel, JavaScript, jQuery, Ajax, Vue.js, Node.js and databases. Analytical profile with SQL Server experience and strong ability to work with SQL queries, data investigation, business rules, production support and continuous improvement of systems used by real customers.

## TECHNICAL SKILLS

**Back-end:** PHP, Laravel, Node.js, REST APIs, Java, C#, Python

**Front-end:** JavaScript, TypeScript, HTML5, CSS3, jQuery, Ajax, React, Vue.js

**Databases and data:** SQL Server, MySQL, MariaDB, PostgreSQL, MongoDB, Supabase, Firebase, SQL queries, data investigation

**E-commerce and web:** e-commerce platforms, integrations, feature maintenance, user support, troubleshooting

**Tools:** Git, Docker, Jenkins, CI/CD, Postman, AWS/S3, Microsoft Office

## PROFESSIONAL EXPERIENCE

**Mid-level PHP Developer | ISY Sistemas | Jan 2024 - Present**

- Full-stack development and maintenance of the Sublimity e-commerce platform, contributing across back-end, front-end and database layers.
- Built features and improvements using PHP, Laravel, JavaScript, jQuery, Ajax, Node.js and SQL.
- Business-rule analysis, SQL query creation/maintenance, data investigation, real-user support and performance improvements.
- Integration maintenance, incident troubleshooting and continuous improvement of operational stability.

**Junior PHP Developer | ISY Sistemas | Sep 2021 - Dec 2023**

- Developed and supported the Sublimity e-commerce platform, focused on PHP, JavaScript, Ajax and jQuery.
- Supported requirements analysis, bug fixing, feature maintenance, SQL queries and data inconsistency investigation.

**Information Technology Instructor | Go Think Educação Profissional | Sep 2020 - Jul 2021**

- Taught computer skills, computer maintenance, networking, hardware and technology fundamentals.

**Information Technology Support Technician | GZ Sistemas Automação Comercial | Nov 2019 - Sep 2020**

- Supported users in a commercial automation environment, diagnosing incidents, configuring systems and identifying recurring issues.

**Information Technology Intern | Prefeitura de Francisco Morato | Feb 2018 - Oct 2019**

- Supported infrastructure, networks, servers, computer maintenance, users and system standardization.

## SELECTED PROJECTS

**MamaEliza:** online delivery menu with customer view and admin panel for orders, products, ingredients, cash register and reports. **PHP, Laravel, JavaScript, MySQL**

**PDV Online:** web POS for sales without fiscal issuance, with inventory, billing, discounts and progressive promotions. **PHP, JavaScript, MongoDB**

**EasyFarma:** desktop system for pharmacies, with sales, product registration and local-network inventory control, working offline on multiple computers. **Java, PostgreSQL**
