Back-end: PHP, Laravel, Node.js, Java, C#, Go

Front-end: JavaScript, HTML, CSS, jQuery, Ajax, React, Vue.js, Angular

Databases and data: SQL Server, MySQL, MariaDB, MongoDB, relational modeling, SQL queries, data analysis

E-commerce and web: e-commerce platforms, integrations, feature maintenance, user support, troubleshooting

Tools: Git, Docker, Microsoft Office, network infrastructure, operating systems

PROFESSIONAL EXPERIENCE

PHP Intermediate Developer | ISY Sistemas | Jan 2024 - Present

- Full-stack development and maintenance of Sublimity, an e-commerce platform, contributing across back-end, front-end and database layers.
- Built features and improvements using PHP, Laravel, JavaScript, jQuery, Ajax, Node.js, Vue.js and React.
- Analyzed, maintained and improved queries and data structures in SQL Server, MySQL, MariaDB and MongoDB.
- Contributed to projects involving C# and Java, adapting to different stacks according to product needs.
- Investigated issues, provided technical support and improved systems used by customers and internal users.

PHP Junior Developer | ISY Sistemas | Sep 2021 - Dec 2023

- Developed and supported the Sublimity e-commerce platform, focused on PHP, JavaScript, Ajax and jQuery.
- Supported requirements analysis, bug fixing, feature maintenance and customer-driven improvements.
- Worked frequently with relational databases, SQL queries and data inconsistency investigation.

Computer Instructor | Go Think Educação Profissional | Sep 2020 - Jul 2021

- Taught students computer skills, hardware maintenance, networking and infrastructure fundamentals.
- Provided technical support while developing clear communication, teaching ability and problem-solving skills.

IT Support | GZ Sistemas Automação Comercial | Nov 2019 - Sep 2020

- Supported users with proprietary software and third-party tools, diagnosing and resolving technical incidents.
- Performed preventive maintenance on computers, network devices and the company's technical environment.

IT Intern | Secretaria de Educação de Francisco Morato | Mar 2018 - Oct 2019

- Performed preventive and corrective maintenance on computers, servers, networks and infrastructure.
- Provided user support and operational assistance in a public-sector environment.
